ITEC
+iMath
FUN!

Did you know...

$12+3-4+5+67+8+9=100$

$111111111 \times 111111111 = 12345678987654321$

$\pi = 3.14159265358979323846264338327950288$

At ITEC, we know how much fun math can be! That's why our iMath program helps you get better at math, and learn to love it!

With **tutors** in the classroom and **web-based tools** (*think math video games!*), we **personalize each student's experience** to help them **gain grade levels and confidence.**

How much does it cost?

Nothing! iMath is free for fourth, fifth and sixth grade students in participating schools!

This sounds awesome! Can I join?

Visit **www.iteclansing.org/programs/k-12-programs** or call **517-708-4390,** or send a note to **iMath@iteclansing.org** to see if your school participates and for more information.

Mixing science and fun in equal parts, the Information Technology Empowerment Center teaches technology to prepare youth and families for success in science, technology, engineering and mathematics.
