

EVER...

...wondered how an
**app on your
phone works?**

...wanted to
build a robot
that does your
bidding?

...dreamed of
being the person who
**creates video
games?**

**Are you a girl who loves
numbers, building things
or technology?**

If you answered yes to any of these questions...

- 1** you're awesome, and
- 2** we have the club for you!

2020 GIRLS

ITEC 2020 Girls is an exciting new club here in the Lansing area geared toward girls ages 9 –13. 2020 Girls prepares young women to travel down the path of success in science, technology, engineering and math (STEM) education and careers, in 2020 and beyond.

What will I learn about?

You'll get to hang in all of our Techtronics programs!
LEGO Robotics! The Science & Art of Game Design!
App Design!

What will I do?

Go on field trips! Hang out with cool women with cool jobs in cool STEM fields! Make new girlfriends who love STEM just as much as you do!

How much does it cost?

Nothing! 2020 Girls is free to middle-school girls in the Lansing area.

This sounds awesome! Can I join?

Visit www.iteclansing.org/programs/2020girls or call **517-708-4390**, or send a note to info@iteclansing.org to see if your school participates and for more information.

2020 Girls is a project of the Information Technology Empowerment Center and the Michigan Council of Women in Technology, and is made possible by a grant from the Capital Area United Way Women's Initiative.
